

# PAN 10 Maximo 6

The maximum. In all. Android 13.

**JEPSSSEN**  
everything is possible

MAXIMO 2K  
**pan10**  
UNLIMITED TABLET

## The maximum. In all.

The revolutionary concept of Jepssen, a unitary technology for countless applications available anytime, anywhere, has its sublimation in the new PAN 10 Maximo 6 - Unlimited Tablet.

## 2K 11" Large Display

Equipped with IPS Screen LED 11" 2K 16:9 2000x1200, high brightness and brilliance, Capacitive MultiTouch, allows you to perform all functions in a simple and natural way.

## Sensitive to your commands

Touching the screen with your fingers you run the applications, you select the functions or you adjust the screen size, the images and the pages.

The screen also turns into a Multilanguage virtual keyboard. On the front panel, near the screen there are the buttons to select and to send and to the sides those of lock, On/Off and for the audio volume regulation.

## OS Android 13 Inside

It has in bundle the most powerful, complete and updated version of Android 13, for full compatibility and access to hundreds of thousands free applications or purchased over Internet. Countless new special features, including instant conversion of voice to text, automatic subtitle creation for videos, audio messages and recordings, voice commands to open apps, navigation and messaging even when in the car, the hardware and software multilevel defense system to prevent intrusions and protect users and data even in the event of loss of the PAN 10 Maximo, automatic recognition of the objects or objects framed by integrated cameras.

## Powerful and fast computer

Equipped with Octa-Core 64bit processor, powerful and fast, 6GB RAM and 128GB ROM, you can instantly perform a multitude of functions and applications and share them with all other devices on the network.

## Game Station 3D On-Site & On-Line

With the powerful Quad-Core 3D graphics processor and Internet connection, it performs all the most advanced and spectacular games, including on-line multiplayer, made for Android and it supports all the USB game peripherals (ie: Joystick, Game Pad).

## Intelligent sharing

The PAN is part of the new range of Jepssen devices "Digital Smart Share" for the intelligent sharing of all the equipments and digital sources, including computers equipped with the most popular operating systems, including Windows 11.

The exchange of files (audio, video, data, etc.) becomes extremely easy and intuitive. Sharing can be done via integrated wireless 5G WiFi and Bluetooth 5.0 modules.

## Multitasking

The PAN includes Task Manager function to save power consumption while multiple running of more programs, allowing quick and easy switching between running applications.

## The new era of total communication

Whatever is the need for connection and communication - 4G, 3G, 5G Wlan, Bluetooth 5.0 - the PAN is able to assure you all of them. No need to add anything else, it's all included as standard. It's a 4G LTE, 3G Phone, whit 2 SIM Slot, that can be used handsfree or with a headset.

With the 5MegaPixel Webcamera on the front panel you can use it as videophone and video conferencing (eg Skype, Zoom, Google Meet, Microsoft Teams) and with the 13MegaPixel Camera, with FlashLight, AutoFocus and FaceDetection, in the rear panel you can shoot 2K video and take pictures.

Allows you to surf the Web using the integrated 5G WiFi Dual Mode 2.4/5.8Ghz module or in 4G (up to 150 Mbps), 3G mode (up to 42Mbps), to receive Web TV and Radio stations (eg YouTube, Netflix, Dazn), to receive and send instant messages, SMS, MMS and e-mail (E-Mail), to communicate in real time across all social networks (eg FaceBook, X, Instagram). With "Turbo-Download" function it's possible to download, contemporaneously, from 5G WiFi and form 4G.

It's a GPS to display the available maps for each route (eg Google Maps).

## Full Sensor

With the Gravity Sensor, it adjusts the ideal location for viewing the screen (horizontal or vertical) depending on your needs in the games that require this feature. With the Light Sensor, it automatically adjusts the optimal brightness of the display with respect to the ambient and the Proximity Sensor detects the distance between the PAN and its surroundings (eg the user's face) and it automatically performs the adjustments of the way of using it.

## Emotions in High Definition

Fully supports high definition (2K) in all popular formats, including MKV and e-books (magazines, newspapers, books, etc.).

## Quad Stereo Speaker

It has 4 speakers capable of reproducing cinematic surround sound effects with high audio fidelity.

## Ultra thin, ultra light

Extremely handy and convenient. The size of the PAN are very compact because it has a thickness of only 0.7 cm and 25.7 cm high and 16.2 cm wide. Robust, thanks to its special anti-shock cover, weighs about 489gr.

## Long Life

The new generation of rechargeable lithium polymer battery (7000mAh) provides a long operating life of up to 8 hours of battery life depending on the mode of employment and up to 1000 hours standby.

## Expandable and complete to connect

On either side of the PAN there are the USB Type-c port for connecting to your computer and to all the peripheral devices that have this connection (mouse, keyboard, USB HDD, USB Pen, etc.) and the audio input microjack, on the rear panel it has the speaker for audio playback and inside it has the slot for Micro-SD Card to store data or system applications and 2 slot for the SIM card.
